

WAHP

World Animal Health Platform

Projet local développement global !

« Join us in the Future »

To all SVS members

Dear colleagues,

I send you this email to announce the creation of a visioconsultation platform, veterinary telemedicine: WAHP: World Animal Health Platform

What WAHP brings you:

Work where you want,
when you want

Organize and realize your
benefits with a single
tool

Increase your cash
income

A better
visibility

An extra service for
your customers

Increase your
customer base

Exchange between professionals

Presentation of the concept

I wanted to give access to this innovative concept in to SVS members in priority. You will find below the detailed presentation of WAHP. The purpose of the WAHP platform is to enable direct customer - vet communication with veterinarians from around the world 24/7 on the principle «My vet any time, anywhere». It is a new tool for the profession and probably a new specialization in the near future. The platform will have an open access to informative and educational content (to offer a professional and scientific alternative to forums and other blogs more or less reliable). It will also allow exchanges of information between professionals paid or not. Expertise, interpretation, second opinion, online assistance, conferences ... The platform is fully secure with both consultations and transactions providing financial guarantees and total confidentiality.

If you want to be part of this platform (**pre-registration, with no obligation**), register now by clicking on the link below:

- [Formulaire Francais](#)
- [Formulaire Anglais](#)
- [Formulaire Allemand](#)
- [Formulaire Italien](#)

If you would like to receive more information or if you want to become a cooperator, do not hesitate to contact us at the following address:

How to use Wahp as a veterinarian?

1. After registration, I set my rates and my schedule in my Wahp account. Choose when you want to be available for your customers. Determine your offer at the minute or at the consultation (package) and according to your communication.

<http://wahp/dr-dolittle>

2. I get my Wahp link to add to my website. These items are available in my account. This allows your customers to contact you immediately or by appointment and make the payment of the service before the call.

3. I place my Wahp link on my website and my social networks. Copy and paste this link on your website, your LinkedIn profile, Facebook or give it directly to your customer!

4. When a customer contacts me, a notification is sent to my phone. You are contacted according to the availability you have chosen. In the case of a video consultation, the server will inform you that a customer is trying to reach you and invite you to visit your Wahp account.

5. I deliver my benefit with the assurance of being paid.

At this point, you do not need us anymore, you can consult around the world!

Overview of what your customers will see:

1st Step:

The client chooses his veterinarian with the following criteria

- Availability
- Specialization
- Language spoken
- Rating
- Price

The first step is to choose the consultation mode among those proposed (phone or chat / video). The customer can choose to make an appointment to contact you directly. Attention, the appointment is only available for visioconsultations.

2nd Step

Your customer chooses the product he wants.

3rd Step

Before completing his order, your customer visualizes his basket and then enter his bank details to pay your services.

By clicking on «Next», the customer connects with the elected vet.

Veterinary specialist small animals

Dr Dolittle

Online

15 FR (Soit 10 min)

Direct consultation
